

Products and Services

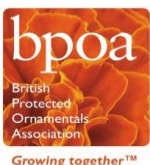

Baginton Nurseries Ltd has over three decades of growing experience, and has supplied **Britain in Bloom** Award Winners for many years.

BOPP Accreditation ensures Baginton`s are committed to continually improving standards of quality of products and Services.

We now incorporate Celcote (a naturally occurring water management compost additive) in all of our growing media. This will save customers labour costs, with the reduction of watering frequency.

- Contract growing of Pack & Pot Bedding, Hanging Baskets & Planted Containers.
- Hanging basket and container refill service available.
- Specimen plants and other nursery stock can be quickly sourced.
- Consultancy service and design & plant service is available on request.
- All plants are grown to customer specification and can be viewed at any stage of production.
- All plants labelled for easy identification.
- Deliveries can be sorted and labelled into specified quantities to facilitate planting.
- Danish trolleys can be available to loan during the dispatching period.
- Bio degradable pots and pot-less growing trays available with no de-potting, saving labour costs at planting site and less waste disposal.
- Peat free and peat reduced composts are available.
- Controlled release fertiliser, insecticide and water retentive polymers can be added to the compost.
- All our used pots & trays can be returned or collected by us for recycling.
